Getting Started

This chapter describes the contents of the software diskettes and provides a step by step process of incorporating DOC Add-on into TE Edit Control.

In This Chapter

[Files](#)

[License Key](#)

[Incorporating the DLL into Your Application](#)

Files

This package included the following files:

wrs14.dll	The DLL file (Win32)
wrw14.dll	The DLL file (Win64)
help.chm	The Help file
help.pdf	The help file in the pdf format.

License Key

Your license key is e-mailed to you after your order is processed. You would set the license key using the `TerWrsSetLicenseKey` function exported by TE Edit Control. This call also enable the DOC file format support in TE Edit Control.

```
TerWrsSetLicenseKey("xxxxx-yyyyy-zzzzz")
```

Replace the 'xxxxx-yyyyy-zzzzz' with your license key.

When using DOC Add-on in the evaluation mode, please call the `TerWrsSetLicenseKey` method with a blank string parameter:

```
TerWrsSetLicenseKey("")
```

Incorporating the DLL into Your Application

Simply copy the wrs1.dll file into the windows\system32 folder or into any folder available in the search path. Then set the license key for the product using the [TerWrsSetLicenseKey](#) method exported by TE Edit Control. This is all that is needed to add the DOC file import feature into TE Edit Control.
